

ON24 Webcasting - Continued Education Scale your programmes

PGi's Continuing Education solution, powered by ON24, will have a solid impact on the success of your global education programmes, such as continued medical education, employee training, professional development, corporate learning, panel discussions, sales training, new hire orientation and certification courses. A PGi Webcast Manager will guide you through every step of the process.

To suit your Continued Education needs we can tailor your webcast to include:

Live Audio or Video Streaming Webcast with Slides and Interactivity, along with:

- **Custom Branding**
- **Event Security**
- **Event Survey**
- **Synchronised Portrait**
- **Synchronised Agenda**
- **Download Documents**
- **Hyperlinks**
- **Archived Webcast**
- **CPE Module**

Virtual Training

To avoid the cost and inconvenience of travel, businesses and independent professionals can conduct training and education programmes virtually. ON24 Webcasting rich media solutions deliver high-impact audio/visual training materials for a more engaging learning experience. The interactivity of virtual events makes it easy to connect with presenters and track attendee performance.

Fully Customisable Virtual Education Events

ON24 Webcasting virtual events enable the delivery of engaging education programmes by providing a variety of rich media content formats, including live audio and video, audience interactivity, and powerful reporting.

After you develop the educational content, questions/answers and test criteria, you will find that ON24 Webcasting offers many exciting choices for presenting these programmes to the audience.

Integrated Testing Platform

PGi's Continuing Education solutions cater to each programme's unique needs, making the creation and administration of educational programmes a very straightforward process. You may include interactive, self-paced tests before, during or after the event. Additionally, short tests or polls at regular intervals might be included to enforce attendance requirements. Tracking student progress is easy with automated assessment and certificate generation.

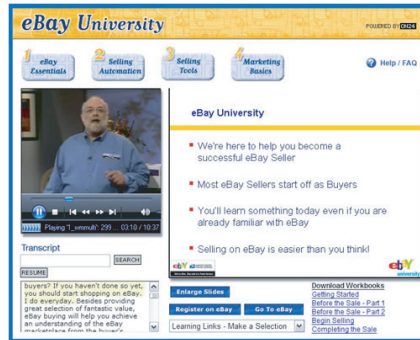

Online Events for Continued Education

Certification

PGi's Continuing Education solutions are particularly well suited for required certification programmes. Certificate generation at the conclusion of a virtual education event can be customised as needed. Now you can track and enforce live attendance, on-demand viewing of course material and completion of post-event surveys and tests.

24/7 Easy Accessibility

The ON24 Webcasting virtual events platform, powered by ON24, delivers fully streamed events. Attendees are not required to dial into conferences and will not be inconvenienced by pop-ups and software downloads. Simply click on a link, turn up the volume and attend a PGI virtual event. Programmes may be broken into chapters and modules to allow attendees to view content in the order that best meets their unique needs. On-demand online courses make it truly easy to learn at your own pace.

Program Results and Reporting

PGi's Continuing Education solutions include a powerful reporting engine which provides details of event performance and course participation and test results. Programme reports are real time and entirely web-based.

Proven Scalability & Reliability

PGi is partnered with ON24. ON24 currently delivers over 35,000 events per year. ON24 has a proven track record of flawless execution of "live" events and is the only
