

# PGi — The Meetings Experts

PGi is a global leader in virtual meetings. For 20 years, we have innovated technologies that help people meet and collaborate in more enjoyable and productive ways.

Every month, our award-winning audio, web and video conferencing products bring over 15 million people together in nearly 4 million meetings, helping many of the smallest and largest businesses around the world be more efficient, mobile and green.

## PGi Facts

- > We have connected more than 600 million people in over 140 million meetings in the last five years alone.
- > Our products meet the needs of every type of user, in any industry, with any type of meeting.
- > We serve more than 35,000 customers and 75% of the Fortune 100™.
- > Our virtual meeting solutions are globally available and scalable for any business need.

## Testimonial

“Frost & Sullivan views PGi as a key provider and leader in conferencing services and real-time virtual group meetings. The company has established a strong customer base and is building the next generation of online meetings that are focused on making user experiences simpler and more intuitive.”

- Roopam Jain, Principal Analyst, Frost & Sullivan
