Start a live iMeet meeting with a single click

# WORK WITH ANYONE ONLINE

---

## Store and Share Files

Store an unlimited number of file types – Word, pictures, PDFs and videos of all sizes.

## Access Everything Easily

Access it all - files, plans, reports and communication using any browser and any device.

## Control Access

Manage what individual users can do and prevent unauthorized access.

## Manage Large-scale Projects

Easily manage a high volume of complex projects. Track the status, manage resources and report progress.

## Consolidate Communication

iMeet Central combines discussions from within the application and email into a single easy-to-follow thread.

## Automate Workflow

Speed up business processes by automatically assigning tasks, sending email notifications, setting document status and more.

## Search Workspaces and Files

Quickly find the files, workspaces and individuals you need with full-text search.

## Coordinate Document Approval

Let users know that documents are ready for review, assign tasks to specific people and forward documents to the next set of approvers.

## Customize Your Workspace

Create customized highly-secure workspaces for each department, project or client that meet your specific needs.

## Capture Data with Online Forms

Use online forms for collecting and storing information in your database in real-time.

## Launch an iMeet Meeting

Integrate iMeet web, video and audio conferencing and launch a live meeting in one click.

About Premiere Global Services, Inc. PGI

PGi is the world's largest dedicated provider of collaboration software and services. We created iMeet®, an expanding portfolio of purpose-built applications designed to meet the daily collaboration and communications needs of business professionals, with solutions for web, video and audio conferencing, smart calendar management, webcasting, project management and sales productivity. PGI's award-winning unified communications and collaboration (UC&C) solutions help nearly 50,000 businesses grow faster and operate more efficiently.
