

24/7 Customer Support

Industry-leading global support in 12 languages

Crystal-Clear Audio Quality

PGi's world-class network delivers 80M meetings per year

Superior Global Coverage

160+ access points across 60+ countries from more than 80 carriers

## GlobalMeet® for Skype Online

### Superior Global Coverage at a Lower Cost

GlobalMeet for Skype Online (GMSO) seamlessly integrates world-class global audio conferencing into your Skype Online environment. Fully independent from Microsoft Audio Conferencing, GMSO provides a single, unified user experience with a lower total cost of ownership.

#### Provide a Unified User Experience

GMSO provides a consistent user interface with the native Skype meeting controls for content sharing, audio and video meetings. Backed by our expansive global coverage, users receive 24/7 global support with access to local language representatives.

#### Lower Your Total Cost of Ownership

Reduce your network, server and software costs by leveraging our advanced call routing, meshed network and global buying power. GMSO includes end-to-end operational monitoring, eliminating any burden from you, including audio network and carrier quality management. With flexible billing options to accommodate any deployment, you can have peace of mind that you are only paying for what you are using.

### Seamless Integration

Native integration provides the most robust, complete solution in the industry.

### Lower TCO

Leverage PGI's intelligent call routing, meshed network, and global carrier buying power to lower your total cost.

### World-Class Audio Network

Gain reliability and security using an advanced audio network that delivers more than 80 million meetings per year.

### One-Click Scheduling

Integrated scheduling provides participants with a single invitation with both the meeting URL and conference details.

### Superior Global Coverage

Connect participants from all over the world with over 160 access numbers from more than 80 carriers.

### Crystal-Clear Audio Quality

Maximize productivity with higher quality hybrid audio conferencing.

### Proactively Managed

End-to-end operational monitoring and management with built-in fraud protection.

### More Connection Options

Improve meeting participation with a mix of dial-in, toll-free and VoIP connections in the same meeting.

### Native Meeting Controls

Enjoy a consistent experience using the Skype meeting controls to mute/unmute, dismiss participants and close conference.

### Experienced, Global Support

Access experienced, local language representatives around the globe 24/7.
